- I. PURPOSE:** As required by R 325.14302 of the Administrative Rules for Substance Abuse Service Programs in Michigan, the following policies and procedures were considered and adopted by majority vote of our Community Mental Health Authority (CMHA) in order to ensure compliance with statutes governing the provision of substance abuse services. These policies supersede the Rights policies of CMHA when applied to individuals receiving Substance Abuse Services operated by or under contract with CMHA only when Substance Abuse Regulations require a higher standard of care.

CMHA will perform the oversight function to ensure compliance with R 325.14301 to R 325.1406 of the Administrative Rules for Substance Abuse Service Programs in Michigan and the following policies and procedures. It shall be the responsibility of CMHA to annually review these policies and procedures to consider necessary revisions. Documentation of this annual review and the majority approval of the governing body shall become a part of the administrative record, as shall other pertinent findings of the Board.

- II. APPLICATION:** All programs operated directly by or under contract with the Community Mental Health Authority for the provision of Substance Abuse Services.

- III. DEFINITIONS:** None

- IV. POLICY:** A recipient, as defined in the 1981 OSAS Administrative Rules for Substance Abuse Service Programs in Michigan, shall not be denied appropriate service on the basis of race, color, national origin, religion, sex, gender identity, age, disability, marital status, sexual orientation, or political beliefs. In addition, CMHA will not discriminate in the provision of services to an individual (1) because the individual is unable to pay or (2) because payment for those services would be made under Medicare, Medicaid, or the Children’s Health Insurance Program (CHIP).

CMHA will comply with all regional provisions pertaining to rights of recipients as directed by NorthCare policies.

- V. PROCEDURE:** The recipient rights subcommittee shall annually review and comment on all program policies and procedures with the goal of identifying any that are discriminatory in nature.
- A.** The admission of a recipient to this program, or the provisions of prevention services, shall not result in the recipient being deprived of any rights, privileges, or benefits which are guaranteed to individuals by state or federal law, by the state or federal constitution, or by the provisions of CMHA Recipient Rights Policies and Procedures.

- B.** A recipient may present grievances or suggested changes in program policies and services to the program staff, to governmental officials, or to another person within or outside the program. In this process, the program shall not in any way restrain the recipient.
- C.** A recipient has the right to review, copy, or receive a summary of his or her program records, unless in the judgement of the Program Director such actions will be detrimental to the recipient or to others for either of the following reasons:
- 1.** Granting the request for disclosure will cause substantial harm to the relationship between the recipient and the program or to the program's capacity to provide services in general.
 - 2.** Granting the request for disclosure will cause substantial harm to the recipient. (If the program director determines that such action will be detrimental, the recipient is allowed to review non-detrimental portions of the record or a summary of the record. If the recipient is denied the right to review all or part-of his or her record, the reason for the denial shall be stated to the recipient. An explanation of what portions of the record are detrimental and for what reason, shall be stated in the client record and shall be signed by the program director. All requests to review records will be directed to the program director who is the only staff member authorized to grants such requests.)

- G.** Should this program engage in any experimental or research procedure, any or all recipients will be advised as to the procedures to be used, and have the right to refuse participation in the experiment or research without jeopardizing their continuing services. State and federal rules and regulations concerning research involving human subjects will be reviewed and followed.
- H.** A recipient shall participate in the development of his or her treatment plan. Primary case coordinator will inform recipients that development of a treatment plan is a cooperative effort between primary case coordinator and recipient. It is the policy of this program that both the recipient and primary case coordinator sign the treatment plan and any major revisions of that plan.
(*NOTE – Recipient signature on the treatment plan is not required by licensing rules.)
- I.** A client has the right to refuse treatment and to be informed of the consequences of that refusal. When a refusal of treatment prevents this program from providing services

These program rules inform new client/s residents of the infractions which can lead to discharge. The rules also describe the mechanism for appealing a discharge decision and which staff has authority to discharge. The client signs a form that documents that a written copy of program rules has been received and questions about it answered. This form is maintained in the client's file. Discharge is for a period of at least 30 days.
- K.** A recipient shall have the benefits, side effects, and risks associated with the use of any drugs fully explained in language which is understood by the recipient. The Program Medical Director has designated the out-patient nurse, who conducts health screenings, to provide this explanation. All clients receiving medication must sign an informed consent form.

- P.** These policies and procedures shall be provided to each member of the program staff. Each staff member shall review this material and shall sign a form which indicates that he or she understands, and shall abide by this program's recipient rights policy and procedure. It is the responsibility of the Program Director to ensure that each staff member fully comprehends the intent of the policies and procedures.
