GOGEBIC COMMUNITY MENTAL HEALTH AUTHORITY

PROVIDER NETWORK PROVIDER MANUAL INTRODUCTION

Gogebic Community Mental Health Authority’s mission is, “To enhance the quality of life for our community by offering comprehensive behavioral health services.” Gogebic CMHA provides an array of services to recipients needing mental health services and support services for persons with developmental disabilities.

As an assurance to our stakeholders; the Consumers, the Department of Community Health, the community and to our employees Gogebic CMHA will require that all providers of behavioral health services in the Network be qualified to deliver these services.

The credentialing and privileging process is designed to ascertain a provider’s:

- Formal Education
- Training
- Experience
- Competence

Executive authorization is granted for a Provider to perform specific services for a designated length of time. Providers who are privileged to deliver certain types of services must continue to meet the requirements, which have been established, to maintain good standing in the Network.

Principal Strategies and Objectives

The principal strategies and objectives, which will be included in every aspect of the Provider Network for Gogebic CMHA, shall be as follows:

- Promotion of access to the least restrictive level of care required for the Consumer.
- Provision of quality care that is evidenced by Consumer satisfaction and clinical outcomes.
- Integration of person centered planning into all clinical activities.
- Management of financial and other resources to contain or reduce cost.
- Arrangement for care that is delivered quickly, locally and in a person centered manner.
- Development of a service delivery system that emphasizes prevention, wellness and recovery.

The Provider Network of Gogebic CMHA will assure network competencies and the sufficient amount of resources, quality and market competition.

This manual has been prepared as a guide to Gogebic CMHA's policies and procedures for individual practitioners, programs and facilities. It provides important information regarding the managed care features incorporated in the Provider Contract.

The manual has been designed to be a useful tool for participating providers and their staff. We look forward to a cooperative and rewarding relationship.

Gogebic CMHA is part of the Northcare Network. Northcare is the prepaid inpatient health plan that manages Medicaid dollars for specialty behavioral health services including substance use disorders in the upper peninsula. Our other affiliate members are Northpointe Behavioral Health Services, Hiawatha Behavioral Health, Pathways and Copper Country Mental Health Services.

SECTION 1:

Provider Responsibilities

Incident Reporting

Providers must notify Gogebic CMHA's Recipient Rights Officer, Angela Pope, at (906)229-6170, immediately by telephone of serious injury or loss of life sustained by a Gogebic CMHA consumer. Written notification must follow within 24 hours. Gogebic CMHA must also be notified immediately of any consumer's unexpected absence from the home or program or discharge against medical advice. Please see the Recipient Rights policies for more detailed information.

Confidentiality and Release of Information

Confidentiality is an important professional and administrative aspect of Gogebic CMHA's policies and procedures. Providers agree to comply with all state and federal laws regarding privacy, confidentiality and release of information. The Provider agrees specifically that it will comply with the Mental Health Code, HIPAA and 42 CFR Part II (when appropriate) and its privacy protection as they relate to consumer information. To the extent necessary for the Provider to disclose information concerning any of Gogebic CMHA's consumers, to any third party, the Provider agrees to comply with notifications provisions of HIPAA and 42 CFR Part II. This provision applies to the Provider, its agents and employees, and the Provider must educate its employees and agents with respect to the confidentiality provisions of HIPAA and 42 CFR Part II as they relate to privacy rights of Gogebic CMHA's consumers.

Record Keeping Requirements

Providers must establish a separate updates for every case upon initial contact with the consumer. Facilities subject to JCAHO, CARF, Northcare Network and other national accrediting organizations must meet the record keeping standards of such organizations. Providers who are not subject to these accrediting organizations must establish a medical record system, which includes the following information:

- Consumer demographic information
- Presenting problems
- Psychiatric and substance abuse history
- Relevant medical history, to include medication history
- Social and family supports
- Mental status exam
- Risk assessment
- DSM-IV five axial diagnoses
- ICD-9 CM diagnosis
- Treatment plan developed through person centered principles

Progress notes for each contact must include objective specific outcome/progress, based on therapeutic interventions provided and linked to measurable goals in the treatment plan.

Obligation to Report/Duty to Warn

Providers must comply with all the state and federal child abuse, adult protective service and other reporting laws. It is the Provider's responsibility to understand and comply with the professional and legal requirements in Michigan. The duty to warn may override the usual right to confidentiality of which an individual is assured when speaking to a clinician. It is important to understand reporting laws as some state laws protecting "privileged" communications between clinicians and consumers may prohibit making such reports and individuals receiving substance use disorder services are covered under more restrictive laws.

Gogebic CMHA's Recipient Rights Officer needs to be informed any such situation.
